**THE TIME TO ACT IS NOW!**

Russia attacked Ukraine on the morning of February 24, 2022. Rocket fires began on several military strategic sites. Dozens of civilians were also killed in residential and civilian buildings. At the same time, tanks entered Ukrainian territory.

The situation in Ukraine is critical and we urge you to support all measures that will help Ukraine and exclude Russian influence in the UK.

This war is affecting people around the world. When one country is being denied its freedom, the whole world suffers. Putin will not stop in Ukraine. The Chernobyl power plant has already been captured, which may cause unimaginable damage across the whole of Europe and UK.

**Help Ukraine to stop Putin, before he goes any further.**

**HOW YOU CAN HELP:**

- Write to your MP, demanding immediate action, including but not limited to harsher sanctions, scan the QR code below
